

2-night Garden visit to the Bruce Peninsula

August 15-17, 2025, Book your own accommodations
(suggestions below)

- It would be nice for us to visit the gardens as group. Some offer tours. We could do one garden visit on Friday afternoon, 2 garden visits on Saturday and one garden visit on Sunday. Some gardens have fees (approx. \$5) for tours. Schedule for garden visits will follow.
- If you have space in your car or would like to ride along with someone, let me know. We suggest that you contribute to fuel cost.
- We can try to have organized dinners together

Keppel Croft Gardens

Explore four acres of perennial, shade and rock gardens created on gravel ridge; art installations, nature trails and Keppel Henge. Bring your picnic.

Bird's Nest Garden Farm

Our farm tours are by appointment in July and August - Tuesdays or Saturdays but we have some flexibility depending on the week.

Bluewater Lavender Farm

a family owned and operated lavender farm which grows five varieties of lavender and hand makes beautiful products.

Earth Bound Gardens and Greenhouse

Blooming from a share a common passion for growing plants, learning constantly, and sharing our beautiful piece of property with as many people as possible.
